Pacific Islands trade with China in 2018

Mona Mato

Trade Commissioner (Acting),
Pacific Trade Invest (China)

While China's economy has enjoyed 30 years of remarkable growth, the world economic leader entered a period of a slower pace of growth in 2018. Despite this slowdown, the growth rate still exceeded the target set by the Chinese government and remains the world's largest trading partner recording the highest export value of merchandise in 2018.

China's technology and innovation has advanced to become a leader in digital innovations, with online channels becoming the 'new retail'. China's consumer attitude is also evolving from a relatively price sensitive mindset to a more premium consumer behaviour. This economic transformation is the ideal market opportunity for Forum Island Countries (FIC's) to develop strategies for cross-border ecommerce connectivity to increase trade in goods with China.

The Pacific-China trade statistics 2018 provides some encouraging results for further export growth and increased business interest by FIC businesses to access the China market. The total value of exports from FIC's to China reached \$US4.6 billion, an increase by \$US1.2 billion from 2017 while total value of imports from China to FIC's was at \$US4.0 billion, a decrease by \$US770 million. Papua New Guinea's performance as a Pacific leader in exports reached a total value of US\$2.8 billion while New Caledonia and Solomon Islands exports of minerals, nickel, iron and timber saw significant growth in 2018. The statistics also highlighted remarkable growth of Fiji's sugar exports while fish exports from the Federated States of Micronesia and the Marshall Islands continued to increase.

The Pacific Trade Invest China is mandated by its Pacific leaders to develop and promote Pacific Islands trade, investment and tourism opportunities for the 16 FIC's. We do this by connecting exporters and manufacturers with Chinese buyers, tourism operators with travellers and connect potential investors with FIC businesses. We do hope this handbook will provide you with a detailed statistical data on trade between China and the Pacific to better inform enterprises, private sector organizations and key stakeholders identify greater opportunities for increased export growth and strengthen trade linkages between the Pacific and China.
